Mathematics Curriculum Explanation - Math 1, 2 & 3 and Core Math 1, 2 & 3

Over a three-year period, Integrated Mathematics & Core Math (Math 1, 2 & 3) teaches the same mathematical topics as a contemporary Algebra 1, Geometry, and Algebra 2 sequence. The difference is the organization of the content. Integrated math teaches the interrelations of the concepts, and core math teaches the logical steps of the math solving problem process. Instead of being divided into separate courses, Algebra 1, Algebra 2, & Geometry are taught in each of the three years.
