

Pickup and Drop-off Reminders

Please Follow These Guidelines for Safe and Efficient Drop-Off and Pickup

- Display the school-issued tag on the front passenger side of your windshield when picking up your student.
- Remain in your vehicle while waiting in the single-file line. Avoid getting out to open doors, help with buckling, or let your child exit the car.
- Do not pull around other vehicles; staying in line keeps traffic moving safely.
- Students should enter and exit the vehicle on the school-side, directly onto the sidewalk.
- To minimize foot traffic, please use the pick-up/drop-off line for most students.
- If your child needs help buckling or exiting, park in a marked space in front of Madison Elementary and use the crosswalk to reach the main entrance. At dismissal, wait in a single-file line along the front sidewalk; a staff member will call your child.

Parent Pickup / Drop-off

Enter from University Street using the east entrance (next to Little Dutch Academy). Follow the full loop around the front of both buildings to prevent backups and keep cross-through lanes clear. Load and unload only in front of Madison Elementary. Exit via the west drive back onto University Street.

Bus Lane Only

The loop north of Little Dutch Academy is a designated bus lane. Please do not use it for drop-off, pick-up, or through traffic.
