## CURRICULUM

**Graduation Requirements-** 46 credits required  
(One class period is worth one credit each semester)

Science	6 credits	Physical Ed.	4 credits
Math	6 credits	Health	1 credit
English	8 credits	Financial Literacy	1 credit
Social Studies	7 credits	Electives	14 credits

### Mathematics Curriculum Explanation- Math 1, 2, & 3 and Core Math 1, 2, & 3

Over a three-year period, Integrated Mathematics, & Core Math (Math 1, 2, & 3) teaches the same mathematical topics as a contemporary Algebra 1, Geometry, and Algebra 2 sequence. The difference is in the organization of the content. Integrated math teaches the interrelations of the concepts, and core math teaches the logical steps of the math solving problem process. Instead of being divided into separate courses, Algebra 1, Algebra 2, & Geometry are taught in each of the three years.

### Advanced Placement (AP) courses (weighted on a 4.5 grading scale)

American Government and Politics AP Human Geography AP French Language AP

### College Credit Courses

Ag-Business Management	Elementary Spanish 1 & 2	Intro to Hospitality
American Literature 1 & 2	Emergency Care	Intro to Precalculus
